Africa restoring 100 million hectares of deforested and degraded land by 2030

Through AFR100, national governments, public and private sector partners, international development programs and local communities restore productivity to deforested and degraded landscapes in order to improve livelihoods.

29 countries have committed to restore 125 million hectares

$1B in development finance
$481M private sector commitment
AFR100 contributes to the Bonn Challenge, the New York Declaration on Forests and Sustainable Development Goal 15
